

THE 3CS TOOLKIT

Learning is a process that leads to a sustained and demonstrable consolidation or extension of **CONCEPTUAL** understanding, **COMPETENCIES**, or **CHARACTER**.

PART 1: CONCEPTUAL LEARNING

Is happening when learners are:

CONNECTING

new, potentially disruptive, knowledge to prior understanding and to important concepts. Here are some great **connecting** tools

CONSTRUCTING

and reconstructing theories of how things work and why things are the way they are, and checking out their new theories in different contexts. Here are some great **constructing** tools

CONTRIBUTING

their refined theories/explanations in order to share their new understandings and practice explaining them. Here are some great **contributing** tools

We design **CONCEPTUAL** Learning Goals starting with the sentence stem:

Learners understand that...

THE 3CS TOOLKIT

Learning is a process that leads to a sustained and demonstrable consolidation or extension of CONCEPTUAL understanding, **COMPETENCIES**, or CHARACTER.

PART 2: COMPETENCY LEARNING

Is happening when learners are:

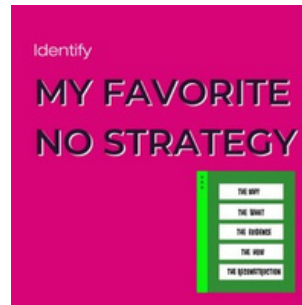

DECONSTRUCTING

expert performance and comparing it with their own. Here are some great **deconstructing** tools

IDENTIFYING

the adjustments they need to make.
Here are some great **identifying** tools

PRACTICING

a skill in order to refine it and make it increasingly automatic. Here are some great **practicing** tools

We design **COMPETENCY** Learning Goals started with the sentence stem:

Learners are able to...

THE 3CS TOOLKIT

Learning is a process that leads to a sustained and demonstrable consolidation or extension of CONCEPTUAL understanding, COMPETENCIES, or CHARACTER.

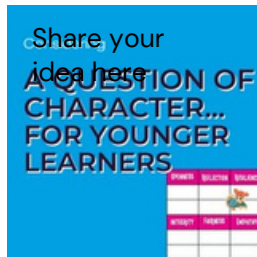

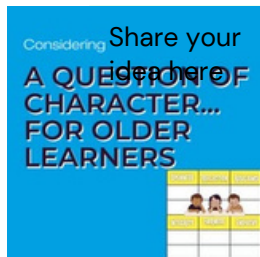

PART 3: CHARACTER LEARNING

Is happening when learners are:

CONSIDERING

what particular dispositions and values would “look like” when applied in specific authentic contexts. Here are some great **considering** tools.

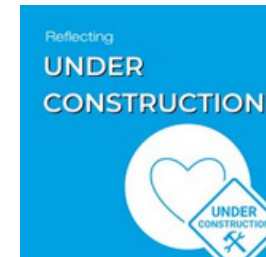

ACTING

as a result of these considerations. Here are some great **acting** tools.

REFLECTING

on the effects of these actions. Here are some great **reflecting** tools.

We design **CHARACTER** Learning Goals started with the sentence stem:

Learners become more...
